

# MC Pick-up cartridge

## Talisman

Entry-level MC cartridges have a new champion. It is called TALISMANN. With this completely new cartridge design Clearaudio established yet another performance benchmark. The TALISMANN offers the enthusiast unbeatable performance for the price. The resolution and dynamic range, the full-bodied weight and warmth, and the shimmering brilliance sets standards that even higher priced cartridges from other manufacturers cannot reach.

### How is this possible?

The philosophy of the TALISMANN is "Ultimate refinement". Painstaking care is taken to ensure that manufacturing errors do not occur and therefore do not have to be corrected afterwards, which explains the extremely attractive retail price.

Innovative ideas formed from the know-how involved in cartridge manufacture combined with that of musical instrument manufacturing are applied with precise German engineering and craftsmanship. The hand polished ebony tone-wood body is slightly rounded, which leads to a resonance free construction. High impedance together with high output voltage ensures noise free musical reproduction. The ruler-flat frequency response from 20Hz to 20kHz grants a firm realistic bass, uncoloured midrange and natural high frequencies. To sum up: Thanks to Clearaudio, music lovers on a tight budget can say goodbye to compromise.

### Technical specifications:

- |                               |                            |
|-------------------------------|----------------------------|
| - Stylus shape:               | elliptical                 |
| - Cartridge weight:           | 11g                        |
| - Recommended tracking force: | 2.4g                       |
| - Compliance:                 | $6 \times 10^{-6}$ cm/dyne |
| - Output voltage:             | 0.5mV at 5cm/s             |
| - Cartridge Impedance:        | 45 $\Omega$                |
| - Cartridge body:             | ebony tone wood            |
| - Warranty:                   | 2 years*                   |

\* Only if the warranty card is filled out correctly and sent back to Clearaudio.
