Welcome to Quadraspire, the contemporary furniture manufacturer based in Bath, England with a worldwide audience. Since 1995, we have been designing & manufacturing hifi furniture blending functionality and style with acoustic performance.

As well as sourcing raw materials from sustainable sources, we endeavour to recycle waste materials so you can be sure that the product you buy is doing least harm to the environment. This brochure features the latest additions to our range including the Qube modular cabinet and QX! Silencer isolation support. ■

Eduard Spruit
Designer & Founder

Wellcome

The Quadraspire design approach is an innovative fusion of function & performance in a distinctive style. From the Q4 Table to the QKAV cabinet, our range can provide you with a complete solution to house all your equipment needs.

■ The Beautiful Q4

All Quadraspire furniture comes flat packed for easy shipping worldwide. Using toughened glass & real wood veneers, it is unique in beauty & individual in grain & colour. ■

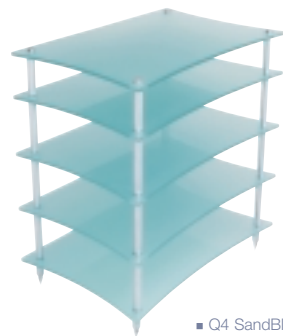

■ The Versatile QAVX

Style

The Q4 is a beautiful and practical modular solution combining shelves with aluminium columns and feet to enhance your sound system both sonically & visually.

Its flexibility allows you to build a table to your own specifications to fit any number of components.

To gain maximum performance from your hifi or av system, the furniture you place it on is equally important as all the other components. Each component & cable is susceptible to electrical & mechanical noise, degrading overall system performance. In theory total isolation is desirable, but in reality impossible. ■

■ Q4 SandBlast

■ Q4 Maple

■ Q4 Black

■ Q4 Maple Wall Bracket

Quadraspire designs achieve optimum isolation through a combination of distinctive curves and chamfered edges minimising resonance and standing sound waves. Aluminium columns eliminate residual magnetism and the adjustable spiked feet allow efficient floor de-coupling. Real wood-veneered shelves ensure good self-damping properties. Where space is a premium and isolation is a must, use the unique Q4 wall bracket with Q4 shelf. ■

■ Q4 Oak

To build your tabel online use Product Builder at www.quadraspire.co.uk

Q4

Weight capacity 80kg per shelf

Q4

Weight capacity 80kg per shelf

Q4 Spec :

- Shelf finishes Cherry, Maple, Oak, Dark Oak, Rosenut, Black, Clear & Sandblasted Glass
- Column diameters 19mm (3/4") & 32mm (1 1/4")
- Column heights 100mm (4"), 140mm (5 1/2"); 180mm (7"), 216mm (8 1/2"), 256mm (10") & 326mm (12 3/4")
- Columns finishes Black & Matt Silver
- Optional extras castors floor protectors

■ Q4 Ref + Q4 Ref Isolation

Together with Music Works, Quadraspire has taken its designs to another dimension through the development of the Q4 Reference table. This is a combination of acrylic shelves supported by concave aluminium columns & feet.

The shelves are decoupled producing less resonance quickly dissipated through the columns allowing your hifi & av components to virtually float & deliver a clearer, cleaner musical performance. ■

■ Q4 Cherry + Q4 Ref Isolation

■ Q4 Ref + Q4 Ref Isolation

To upgrade the performance of both the Q4 and the Q4 Ref add the Q4 Ref Isolation shelf to the top of your table.

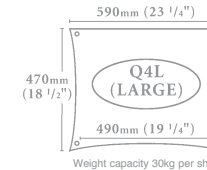

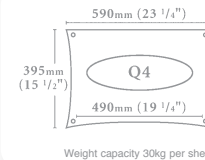

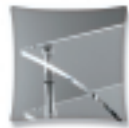

Where space is a premium and isolation is a must, use the unique Q4 Wall Bracket with Q4 Ref isolation shelf. ■

As with the Q4 you can build the Q4 Ref online using Product Builder at www.quadraspire.co.uk

■ Q4 Cherry + Q4 Ref Isolation

Performance

Q4 Ref Spec :

- Shelf finishes Clear Acrylic
- Column diameters 19mm (3/4")
- Column heights 60mm (2 1/4"), 100mm (4"), 140mm (5 1/2"), 180mm (7") & 216mm (8 1/2")
- Columns finishes Black & Matt Silver
- Optional extras floor protectors

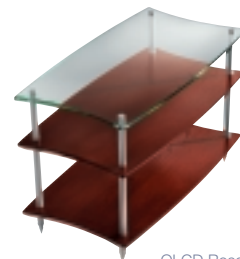

■ QAVX Dark Oak

The QAV is a beautiful and practical modular solution combining shelves with aluminium columns and feet to enhance your sound system both sonically and visually. Its flexibility allows you to build a table to your own specifications to fit any number of components. ■

To do this online use Product Builder available at www.quadraspire.co.uk

■ QAVM Oak

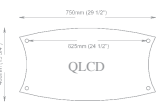

■ QLCD Rosanut

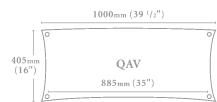

The choice of 4 sizes means the QAV range can support any system from the smallest LCD to the largest plasma. The QAVX can accommodate a complete AV system including front and centre speakers on one rack. ■

Quadraspire has taken its designs to another level through the development of the QX silencer – a new phenomenon in isolation support – delivering a clearer, cleaner and more musical performance.

QX! Silencer is a unique, versatile and effective isolation support for all audio components, speakers and cables sited on furniture, floors or other surfaces. QX! Silencer dramatically reduces the negative effects of contact vibrations on sound quality, delivering a more clearly defined musical performance.

■ QX 25 & QX 50

■ QX 25

Developed from Quadraspire's acrylic Q4 Reference Tables, QX! Silencer is designed and manufactured from low-mass inert acrylic for resonance-free isolation support. The unique Quadraspire curve ensures minimal contact, de-coupling and freeing audio components from their environment. ■

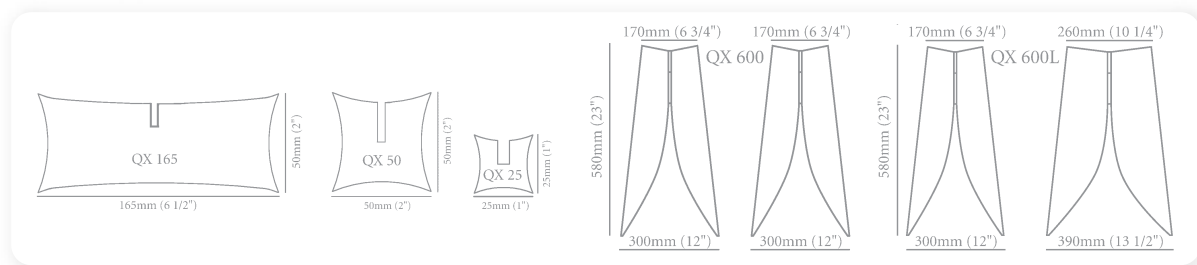

Listen to the difference with the QX! Silencer..

- QX 25** Low profile design for audio components including CD, DVD players, tuners, turntables, amplifiers and all-in-one systems.
- QX 50** Designed specifically for loudspeaker cables, signal cables and power cables.
- QX 165** Larger profile design for shelf-mounted loudspeakers and floor standing audio components – amplifiers, power conditioners and power blocks.
- QX 600** Developed specifically for stand mounted speakers, the loudspeaker stands ensure state of the art support. Listen to your speakers not your stands !

■ QX 600L

■ CD Qubes x2 - Oak

The CD Qube is designed to house your expanding CD & DVD collections. Modular and flexible in use, the CD Qube provides an attractive practical solution for your media storage needs.

The CD Qubes can be floor standing or wall mounted and each can hold up to 150 CDs or 66 DVDs. Clear or Sandblasted glass doors & adjustable plinth are optional. ■

■ CD Qubes x9 - Oak

■ HiFi Qube - Oak

■ LP Qube - Dark Oak

The LP Qube is a brilliant solution to all your vinyl storage needs. Each Qube can hold up to 150 LPs with glass dividers providing good protection and optional glass doors to keep them dust free.

The HiFi Qube, X & XL, can house your hifi & av components discreetly and can be connected to both the CD & LP Qube to create a media wall. Glass doors, locking device & adjustable plinth available as optional extras.

This new series of multi purpose Qubes has uses far reaching beyond simply music storage. ■

■ CD Qubes x2 - Oak

Qube Spec :

- Qube CD external 520mm (20 1/2") x 520mm (20 1/2") x 200mm (8") / internal 490mm (19") x 490mm (19") x 160mm (6 1/2")
- Qube LP external 520mm (20 1/2") x 360mm (14") x 360mm (14") / internal 490mm (19") x 330mm (13") x 320mm (12 1/2")
- Qube X external 520mm (20 1/2") x 520mm (20 1/2") x 420mm (16 1/2") / internal 490mm (19") x 490mm (19") x 380mm (15")
- Qube XL external 520mm (20 1/2") x 520mm (20 1/2") x 520mm (20 1/2") / internal 490mm (19") x 490mm (19") x 480mm (19")
- Qube finishes: Cherry, Maple, Oak, Dark Oak, Rosnut & Black
- Optional extras: adjustable plinth & glass doors

■ QK Rosenut

For those who prefer their hi-fi enclosed, and little fingers spring to mind, the Quadraspire cabinets are the answer.

The QK cabinet is available with lockable clear or sandblasted glass door. Inside, there are four adjustable glass shelves. Good ventilation and easy access is provided through the open frame back.

■ QK Oak

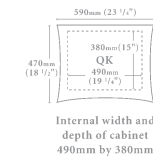

■ QKAV Cherry

The QKAV cabinet is a solution which enables you to house large systems within an elegant structure. The double doors can be recessed into the cabinet when open. The doors are lockable and available in clear or sandblasted glass.

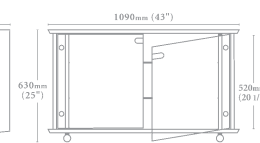

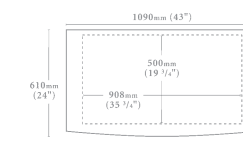

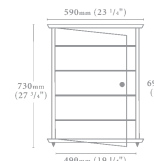

Inside, there are two adjustable glass shelves. Good ventilation and easy access are provided through the open frame back. This is a robust yet tactile piece of furniture and should you need to move it heavy duty castors are available as an optional extra.

■ QKAV Cherry

Internal width and depth of cabinet 490mm by 380mm

QK Spec :

- Weight capacity 30 kg per shelf - max load 180kg
- Optional extras castors & floor protectors
- QK finishes Cherry, Maple, Oak, Dark Oak, Rosenut & Black

QKAV Spec :

- Weight capacity 60 kg per shelf - max load 180kg
- Optional extras heavy duty castors
- QKAV finishes Cherry, Maple, Oak, Dark Oak, Rosenut & Black
